# The Gospel of Love

It is time to rethink some important aspects of who we are and why we are living on this earth.

La Ermita – The Hermitage

"If I have knowledge and comprehend all mysteries and have not love, I am nothing... There are in the end three things that last: faith, hope and love, and the greatest of these is love."

## The Divine Nature of God

God by divine nature is infinite, all powerful, all knowing and all loving.

As God, the Three Divine Persons cannot be a failure in anything They do.

As God, everything exists within Them. Everything shares Their Life, Their Being.

Unconditional love is Their Divine Energy, the life of the Three Divine Persons.

God is Family: God the Father, God the Mother and God Their Son, united in total unconditional love. Three Persons in One God. The powerful intimate love within God the Father and Mother (the Holy Spirit) of its very essence begot, not made, their Divine Son.

That same love brought forth all of creation from within the two of Them. Everything is created in some way in their image and likeness. Nothing can be created any other way.

Their creation is such an integral part of themselves that God the Mother took to Herself an angelic spirit-body to become even more one with Their angelic creation. The person of that union is called Sophia, Mother Sophia.

And their Son became an integral part of our human creation by being born in a body like ours. The person of that union is called Jesus.

And yes, we intelligent beings, created to Their image and likeness, are automatically an integral part of their Divine Family. We are One with Them and They are One with us, and we are One with one another. They live in us and we live in Them. This is who we are.

## No Pain, No Gain

We chose to come to this world so that we could grow more in the Divine Love that we are.

We chose also the obstacles we desired to experience for our growth. But, when we entered this world, that knowledge was hidden in our spirit.

In this life, our unconditional love became united with conditions and contracts. That, in turn, opened the door for fear to appear within us, which then caused us to separate ourselves from one another in various degrees for our self-protection.

Once that fear had convinced us that it had the power we needed to protect ourselves our problems began.

Fear's method of protection was "separation," separation in some way from others and God. In other words, we began the creation of our "hell" which will remain until we return to being united again in love with our whole Divine Family.

Thus, we cease to use our bodies as instruments of protection or self-gratification.

## We Are Love

Love always heals, because it unites us with one another. Love empowers us to forgive and ask for forgiveness of each other.

With Love, the Gifts of Mother Sophia, the Holy Spirit, given to us for the common good, flow out of our bodies, which truly become our instruments of love rather than our toys of pleasure.

Being Love, we are truly members of the Family of God. Our very eyes, words, hugs and caresses express the strength of that love within, our desire to be one with the one who is receiving our love, our very being, especially, our Father, Mother Sophia and Brother Jesus.
